THE EASTERN CHILD CONSORTIUM
Developmental Continuous Case Seminar
September 2026 – April 2027 online via Zoom

NOW ACCEPTING REGISTRATION FOR 2026-2027

Brought to you by **The Eastern Child Consortium (ECC)** this **tuition-free** program includes alternating case presentations from two different developmental stages in each segment. Each section has two clinical presenters and is led by two psychoanalyst faculty from participating training centers in North America. The alternating structure demonstrates the centrality of a developmental approach, with particular focus on formulation and technique across infant, child, adolescent, and adult treatment.
This program is open to any child or adult psychoanalytic candidate, psychotherapy student, early career analyst, or any other mental health professional participating in APSA and/or IPA programs and interested in integrated (child/adult) models or life cycle psychoanalytic models.

The program runs through the academic year for 27 weeks (three 9-week segments). Preference will be given to those who enroll for the entire 27 weeks, although participants can sign up for any of the 9-week segments.

The current faculty has affiliation with 9 APSA and/or IPA institutes. If anyone is interested in teaching or presenting psychoanalytic case material during one 9-week segment, please reach out to Justine Kalas Reeves (justinekalasreeves@gmail.com) or Joy Kassett (joykassett@gmail.com.

If you would like to attend, please complete the attached registration form and confidentiality agreement and email to ConnieS3@aol.com by August 1, 2026.
